

High Power Gears

High power gears for 1 and 2 kW floodlights, installed remotely. Contains ballast and capacitors for a superior operation of the floodlight.

- Pre-wired ready to install
- Available in IP21 (gear tray) and IP65 (gear box) versions
- Compatible with all lamp types, including short arc lamps with improved output
- Suitable for standard and hot restrike ignition, ignitor not included
- Electronic version available for flicker free operation of the Altis floodlight

Photographs, line drawings and photometric data are representative only. For specific product detail please select an individual product.

Material/Finish

IP21 gear tray: Ballast, capacitors and other components mounted individually on steel plate.

IP65 gear box: Resin encapsulated power supply unit.

Installation/Mounting

IP21 gear tray: power supply connection via 2 x 16A fuses (use cable core up to 10mm²) connection to floodlight via screw terminals (use cable core up to 2.5mm² max).

IP65 gear box: connections via cable glands, compatible with 7-14mm HO7RN-F cable, and screw terminals.
