

Popular Range Attachments

Economy diffusers and reflectors for use with original Popular Range battens

- For cost conscious schemes
- Diffusers retained by spring loaded end caps for quick and simple maintenance
- A wide beam reflector to provide wider luminaire spacing
- A narrow beam reflector where focussed directional light is needed

Photographs, line drawings and photometric data are representative only. For specific product detail please select an individual product.

Material/Finish

Diffusers: UV stabilised styrene with white ABS end caps

Reflectors: steel with precoated high reflectivity white finish

Installation/Mounting

Diffusers attach to the batten using spring loaded end caps. All clips and end caps supplied. Allow a minimum of 50 mm spacing between end caps of adjacent fittings. Reflectors attach to the batten with mounting kits (supplied).
