

Voyager Twinspot

The featherweight LED twin spot luminaire for large open area and high risk applications

- Comfortable installation due to low weight, prepared knockouts for cable inlets and adjustable heads to match light output to application
- The Twin Spot is one of the lightest and slimmest twin spot luminaires on the market with a weight of only 1,7kg and 87mm total depth
- IP65 as standard to protect against challenging environment and reliable operation

Photographs, line drawings and photometric data are representative only. For specific product detail please select an individual product.
