

Contrast

Distinctive and elegant, Contrast range emphasises modern architecture and urban environment

- The entire family appears in a consistent and long-lasting modern design. With the monochrome black front face, the design of the Contrast cites the typical attributes of powerful optical instruments.
- From compact 4 LED spotlight to powerful 52 LED floodlight, Contrast offers a large choice of colour temperature from very warm 2200K to 4000K, balanced white and RGBW to reach the perfect colour.
- An easy control of the light with DALI2 for whites and RDMX for RGBW. You can also select manual dimming with a discreet push button or bluetooth wireless dimming to manage your installation from your smartphone.
- The 4LED mini Contrast is very compact with an integrated driver (whites only) and a single lens to achieve great colour mixing.
- Contrast is available with narrow to ultra wide beam angles, elliptical and asymmetrical beams. A great choice of nicely designed accessories can be added on site: rotative film diffusers to enlarge the choice of beam angles; honey comb, louvre and visor.
- Installation on pole is simplified with a dedicated pole mounting interface specifically designed for 12 LED Contrast.

Photographs, line drawings and photometric data are representative only. For specific product detail please select an individual product.

96633457

Material/Finish

Body: die-cast aluminium (EN AC-44300) best resistance against corrosion. Compatible with seaside installation. (Standard corrosion class C5 according to ISO 9223: 2012).

Powder coated in texturized anthracite grey / light grey / black / white. Other RAL on request.

Breather .

Glass: tempered glass, 5mm thick.

Gasket: EPDM.

Screws: geomet screws.

Contrast

Installation/Mounting

4L and 12L Contrast are equipped with a rotative foot for 360° horizontal rotation, 36L and 52L Contrast are equipped with a stirrup. Vertical tilting of -70° +80°.

4L Contrast white: with integrated driver prewired with 1x2 metre cable.

Balanced white and RGBW: prewired with 1 or 2x 2metre cable, Gearbox must be ordered separately.

Bluetooth or DALI light management available in remote gearbox to be ordered separately.

2 cables glands with connector for loop in loop out when using a remote box.

No LED module replacement.

12L, 36L and 52L: integrated driver ,2 cable glands for whites, 4 cable glands for RGBW.

Cable glands for Ø8-13mm cable.

No LED module replacement.

Optical accessories to be screwed on the front ring. film diffusers can be rotated for precise beam positioning.

Pole mounting interface for 12L Contrast. for pole diameter 60 to 100mm.

Specification

To specify state:

A complete range of floodlights to cover architectural projects and area lighting projects from a pole. The range offers a very large choice of colour temperatures, lighting controls and accessories. Design is constantly applied to all fittings and accessories. The 4L is designed with a multichip led and a single lens to achieve great colour mixing and compactness. Integrated driver for all sizes except 4L balanced white, RGBW, DALI and bluetooth variant with remote gear boxes to be ordered separately. Surge protection 6kV and 10kV. Dedicated bracket for pole mounting to become an architectural feature of the city.

As Thorn Contrast
