

Beta Cell

A distinctive cellular design with excellent glare control and high efficacy for office and education

- Available in square 600 and 625 sizes suitable for modular ceilings and when combined with the required mounting accessories can be suspended, surface mounted or installed in plasterboard ceilings
- Offering a modern, alternative appearance to standard flat panels, Beta Cell is an ideal, cost effective solution, for replacing old existing luminaires during a refurbishment project
- The 36 LED cells (arranged in a 6x6 pattern) each have a prismatic primary lens to allow for higher light output with low glare and user comfort
- Easy to install with twist and lock wiring connectors to the LED driver

Photographs, line drawings and photometric data are representative only. For specific product detail please select an individual product.

Material/Finish

Frame: white sheet steel, close to RAL9003

LED cell: Molded plastic

Optical system: Plastic prismatic lens

Installation/Mounting
